ENVIRONMENTAL AND HEALTH AND SAFETY POLICY

Officine Nicola Galperti e figlio S.p.A. believes that the excellence of a business must go hand in hand with:

- preventing accidents, injuries and occupational diseases
- preventing environmental pollution and wasting energy
- the full and constant compliance with regulations as well as acting in full compliance with the customer's requirements in terms of the products.

For this reason, Officine Nicola Galperti e figlio S.p.A., has implemented and will maintain an effective integrated Health and Safety and Environmental Management System in accordance with BS OHSAS 18001 and UNI EN ISO 14001. The primary objective is to increase the culture of health and safety and safeguarding the environment, both within the workforce and with all those who work on the company's behalf, to reach even better levels of performance and to analyse every aspect of the production cycle in detail to reduce the remaining risk to health and safety to the lowest technologically possible value and to contain the environmental impact of the company's activities.

The values supporting the adopted policy regarding the environment and health and safety at work are:

PROTECTING THE HEALTH AND SAFETY OF PERSONNEL AND SAFEGUARDING THE ENVIRONMENT

Officine Nicola Galperti e figlio S.p.A. intends to protect the health and safety of the people with whom it collaborates and to preserve the environment directly and indirectly affected by the company's activities. Therefore, the company will pursue the primary objective of preventing accidents and occupational diseases by promoting every initiative to prevent any situation from arising that might compromise the health and safety of personnel.

Safeguarding the environment is achieved by containing emissions, discharge and waste, organising the actions necessary to reduce the company's impact on the surrounding environment to the minimum, and managing resources better to reduce, as far as possible, consumption.

LEGISLATIVE COMPLIANCE

Officine Nicola Galperti e figlio S.p.A. ensures and promotes cooperation with the relevant public authorities and guarantees a particular commitment to operating with the widest respect for current regulations regarding the environmental and health and safety at work.

SENSITISING AND INVOLVING THE WORKFORCE, SUPPLIERS AND CUSTOMERS

Officine Nicola Galperti e figlio S.p.A. has set itself the objective of involving its personnel both in adequately managing risks to health and safety at work, and in adequately managing the direct and indirect environmental aspects of each activity. The main aim is to increase the awareness of employees, through appropriate training sessions and active participation in the management system, in defining objectives, and also through pro-active communication.

Officine Nicola Galperti e figlio S.p.A. pro-actively involves suppliers and customers by making them aware of its commitment to health and safety and the environment and by involving them, as far as possible, in the pursuit of the company's goals of safeguarding the environment, and in promoting behaviour to protect the health and safety of everybody that works for the company.

PREVENTION SYSTEMS AND CONTINUOUS IMPROVEMENT

Officine Nicola Galperti e figlio S.p.A. is active, through preventive monitoring of its impact on the environment and risks at work, and through adopting the best technologies available and practical, in planning programmes to ensure protection conditions are maintained and to pursue continuous improvement.
